Foundation Students Reach 100 Days of School!

On Thursday 6th July 2023, our Foundation students reached a once in a life time milestone – their first 100 days of school!

To celebrate this occasion students were encouraged to come to school dressed as a 100 year old person. Costume suggestions included white or grey hair, glasses, wrinkles, walking sticks, formal shirts and ties or a long dress etc. As you can see from the pictures the students and Foundation teachers entered into the spirit of the day and arrived with so many amazing old costumes. They all looked absolutely fantastic!

On this very special day, they also participated in a variety of fun learning activities that related to the number 100.

The students also reflected on all of the things they have learned since becoming 100 days smarter. They celebrated learning:

- all of the Set 1 RWI sounds
- to write simple sentences
- all the numbers to at least 20 and in some cases many more!
- how to be a good friend
- how to interact with a range of other people.

It has been a busy, and incredible 100 days as students smoothly transitioned from kindy to the school environment. Watching them taking on new challenges, learning new skills and becoming confident learners has been an enormous pleasure and we have especially appreciated the support of parents as the students have begun their literacy learning journey.

Congratulations to all of our Foundation students!

Katrin Ravlich, Liz Bagley & Sarah Campbell – Foundation Teachers

Medication in Schools

Department for Education policy on Administering Medication in schools is:

- * All medication that needs to be administered in school is required to be accompanied with a completed Medication Authority form, which is to be filled out by the Doctor.
- * Medication must be within the expiry date of the product and delivered in the original container; with the label from the pharmacy, that has the child's name on it.
- * If self - administering, a completed Medication Authority form still needs to be completed by the Doctor.
- * All medical plans need to be updated every year.

2024 Enrolments

We are looking at predicted student numbers for next year. Accurate enrolment details are needed so we can determine numbers for our classes.

Therefore if your family is considering moving, or you know of someone moving into our area it is important that you let us know as soon as possible. If you have a younger sibling to start next year or middle of the year and you haven't completed an expression of interest form yet, please come in and speak to the front office staff.

Swimming - Role of Parents

The DfE swimming and aquatics program is a curriculum based program and as such the direct relationship is between the instructors and the school. Where a parent attends in a private capacity they can assist the instructors by observing the following guidelines

- Parents are asked not to communicate with the instructor or any child during the lesson. Direct communication in this way does distract and can impact on the safety of the class.
- Parents contact the school or school representative on site, if they require any further information about the program or their child's involvement in the program.
- Parents who are volunteering with the school must have a Working with Children Check and be RRHAN-EC Trained.
- Please do not purchase food at the swimming centre for your child.

Thanks for your support

Swimming Week- Room 26

In Week 9 of Term 2, Room 26 enjoyed going to swimming lessons at the ARC.

We learnt how to take our lifejackets on and off in the water.

With help from our swimming instructors and lots of practice we improved our swimming skills.

We learnt how to use different flotation devices to rescue someone when they are in trouble whilst keeping ourselves safe.

Learning about swimming safety is very important!
